Chandeliers

Handcrafted glass and steel chandeliers and floor lamps.

The glass shape is created by handmade blow molding (see pictures).

The framework and the stainless steel parts are unique to the glass cones.

Customised chandeliers shapes, sizes and chromatic matches are available. Led lighting.

Light Points

Tables

Stainless steel tables made of multiple layer marine okoume plywood (25 mm/1 inch thick) also suitable for outdoor furniture.

They are finished by manual welding from skilled blacksmith. They can be created on request in several sizes and designs.
